

ETHAN ALLEN®
— THE INTERIOR DESIGN DESTINATION —

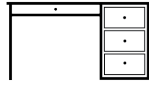

Home Office *buying guide*

how to choose office furniture for your home

Whether you're running your own business or living the corporate work-from-home dream, our modular home office collections make it easy to transform that new addition, that remodeled basement, that compact corner of your living room—wherever you're trying to make work from home work harder for you.

PICK A HOME OFFICE FURNITURE STYLE

Start with the design that speaks to your spirit (we'll save the business part for later!). Every piece of Ethan Allen office furniture for your home is designed exclusively by us, and we craft most of it by hand in our North American workshops.

Continental

Continental offers a modern take on Gustavian style; it's a clean, crisp, and formal-leaning look for the executive or executive-to-be.

Callum

Built in the rugged simplicity of British campaign style, Callum has the power to take you back in time and still look elegant in a modern space.

Faraday Classic

For anyone whose personal brand says "attention to detail." Faraday Classic is made from Indonesian mahogany and metal, finished in chic Satin Gold.

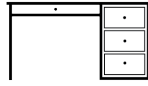

Duke

Crafted from wood but with obvious industrial influences, Duke can go classic for the at-home C-suite and modern for the would-be entrepreneur.

DECIDE ON A DESK

Leave your dining room table behind and reward yourself with a desk; it's the heart of any office furniture setup. Choosing the right size and functionality for your needs is your first order of business.

Executive Desk

Finished on all sides, our freestanding executive desks can be placed almost anywhere, including along the wall or at in the center of your room. Choose an open base for legroom or a pedestal desk with drawers for storage.

Peninsula Desk

Extends into your room from a wall or storage system at a 90° angle and is an excellent option for adding work and meeting space.

Bridge Desk

Provides extra workspace when paired with our peninsula desk. Alone, it's a space-saving desk for smaller rooms. As its name implies, it's placed as a "bridge" between two structures, like cabinets.

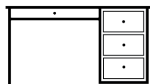

Corner Desk

Maximizes corner space and frees up the center of your room for additional home office furniture. It's also a perfect fit for youth bedrooms as a homework or craft area.

ASK ABOUT A 3D ROOM PLAN

Using a whole room for your home office? Tucking it into a cozy corner? An Ethan Allen interior designer can create a 3D plan to make sure your furniture fits, adding an office chair, lighting, artwork, and rugs to give the space your personal spin.

FINESSE WITH FINISHES & HARDWARE

Each of our modular home office collections comes with its own portfolio of wood finishes, so choose the look that best matches your existing décor. Some pieces also come with multiple hardware finish options—one more detail that can make your home office completely yours.

DONT FORGET THESE OTHER OFFICE ESSENTIALS

Office Rugs

From muffling conference call noise to adding warmth and style, you can't forget the rug when designing your office.

Lighting

Second only to your furniture in importance. Speak with a designer who can help you choose from ceiling to floor and desktop options.

Office Chairs

You can't do your 9-5ish standing! We have options you can customize in hundreds of fabrics and leathers.
